

Here is a list of devices and companies that we can integrate:

- ⌘ **Lighting:** smart bulbs, dimmers, in-wall switches, relays, plugs, LED controllers, scene controllers.
- ⌘ **Security and entry:** smart locks, alarm panels, sirens, door/window sensors, motion sensors, glass-break sensors, doorbells, cameras.
- ⌘ **Climate and comfort:** thermostats, mini-splits, temperature sensors, humidity sensors, fans, vents, blinds, shades, curtains, window openers.
- ⌘ **Water and irrigation:** sprinkler controllers, irrigation zones, valves, leak sensors, water shutoff valves, water meters. Rachio is one official example; its Home Assistant integration exposes irrigation zones, valves, and schedules.
- ⌘ **Garage and access:** garage door openers, gates, covers, barrier controls, contact sensors.
- ⌘ **Energy and power:** smart outlets, energy monitors, whole-home meters, solar inverters, batteries, EV chargers, UPS devices. Home Assistant’s built-in dashboards also explicitly group energy-related devices and data.
- ⌘ **Media and entertainment:** TVs, AV receivers, speakers, soundbars, streaming devices, media players, IR/RF controllers.
- ⌘ **Cleaning and appliances:** robot vacuums, washers, dryers, dishwashers, refrigerators, coffee makers, air purifiers, dehumidifiers.
- ⌘ **Sensors and presence:** occupancy, presence, Bluetooth trackers, GPS/device trackers, air quality, CO₂, smoke, PM2.5, weather stations, soil sensors.
- ⌘ **Buttons and controls:** wall remotes, scene pads, button controllers, voice assistants, dashboards, tablet controls, phone apps.
